Check-list

Pre-Operational Vehicle Inspection Disclaimer

Before commencing the inspection, please ensure the following:

Vehicle Positioning

- Park the vehicle on a level surface.
- Engage the parking brake.
- Turn off the engine.

Safety Precautions

- Assess the surrounding area for any potential hazards that may compromise your safety during the inspection.

Inspection Procedure

- Complete the inspection checklist thoroughly.
- If you are uncertain about how to inspect a particular item, refer to the vehicle's manufacturer handbook or seek guidance from the Ecology Consulting Office or a qualified mechanic.

Reporting Deficiencies

- If any item fails inspection, **do not proceed** with operating the vehicle.
- Immediately report the issue to the Ecology Consulting Office for further instruction.
